STATEMENT UNDER 37 C.F.R. 1.705(b)(2)

1. This statement is respectfully submitted in support of the Petition for Patent Term Adjustment Under 37 C.F.R. § 1.705(d) for the above-referenced patent. In view of the following, it is respectfully requested that Patentees be granted a final patent term adjustment of **921 days** and not 270 as calculated by the Patent Office.

37 C.F.R. § 1.705 (b)(2)(i)

2. The patent term adjustment indicated in patent no. 7,635,762, issued on December 22, 2009, is 270 days. Applicants believe, based on their understanding of the rules governing patent term adjustment, that this determination is in error, due to the Office's improper interpretation of the PTA provisions as discussed in *Wyeth et al. v. Dudas*, No. 07-1492 (D.D.C. September 30, 2008) and affirmed in *Wyeth and Elan Pharma International, Ltd. v. Under Sec. of Commerce for Intellectual Property*, No. 2009-1120 (Fed. Cir. Jan. 7, 2010). Specifically, the Office improperly limited PTA to either the PTA as calculated under 35 U.S.C. § 154(b)(1)(A) or as calculated under 35 U.S.C. § 154(b)(1)(B), but not both. 69 Fed. Reg. 34238 (June 21, 2004). However, as discussed in *Wyeth et al. v. Dudas* and *Wyeth and*

Elan Pharma International, Ltd. v. Under Sec. of Commerce for Intellectual Property, the statute requires that PTA may comprise contributions from both 35 U.S.C. § 154(b)(1)(A) and 35 U.S.C. § 154(b)(1)(B), and the Office's interpretation of the statute was erroneous to the extent that it considered any delays within the first three years after filing the application to "overlap" with delays under § 154(b)(1)(B) after three years from the filing of the application. According to the Court, no delay accumulated within the first three years after the filing date can be said to "overlap" with delays under § 154(b)(1)(B), which by definition do not arise until after three years from the filing date. It is respectfully submitted that the correct patent term adjustment under 37 C.F.R. § 1.702, as calculated under the analysis of *Wyeth et al. v. Dudas* and *Wyeth and Elan Pharma International, Ltd. v. Under Sec. of Commerce for Intellectual Property*, is 921 days.

37 C.F.R. § 1.705 (b)(2)(ii)

3. Applicants seek adjustment to the PTA based on the analysis laid out in *Wyeth et al. v. Dudas* and *Wyeth and Elan Pharma International, Ltd. v. Under Sec. of Commerce for Intellectual Property*, as contrasted with the Office's analysis laid out in 69 Fed. Reg. 34238 (June 21, 2004). Accordingly, the net PTA comprises accumulated PTA arising from both 35 U.S.C. § 154(b)(1)(A) and (B), excluding actual overlap (35 U.S.C. § 154(b)(2)(A)), and deducting any periods of time in which Applicants failed to engage in reasonable efforts to conclude prosecution (35 U.S.C. § 154(b)(2)(C)).

A. Applicants do not presently dispute any aspect of the PTA determination other than the issue raised in *Wyeth et al. v. Dudas* and *Wyeth and Elan Pharma International, Ltd. v. Under Sec. of Commerce for Intellectual Property*. Accordingly, for the purposes of this request to modify PTA, Applicants accept that part of the calculations provided by the USPTO on PAIR (a copy of which is attached as Exhibit A) indicating that there was a delay of 651 days by the USPTO (35 U.S.C. § 154(b)(1)(A)) in sending out the first action, and that Applicant subsequently incurred a delay of 888 days during the course of the prosecution (35 U.S.C. § 154(b)(2)(C)).

B. With regard to the "three year guarantee" provisions of 37 C.F.R. §§ 1.702(b) and 1.703(b), the application was filed on October 21, 2003, and thus PTA began to accrue the day after October 21, 2006. The issuance of the patent on December 22, 2009 cut-

off any further accumulation of PTA under 37 C.F.R. § 1.702(b). The period of October 21, 2006 through December 22, 2009 (inclusive) is 1158 days (35 U.S.C. § 154(b)(1)(B)).

C. Under the analysis of *Wyeth et al. v. Dudas* and *Wyeth and Elan Pharma International, Ltd. v. Under Sec. of Commerce for Intellectual Property*, this 1158 day period under 37 C.F.R. § 1.702(b) is added to the previously calculated (651 - 888) day period based on 37 C.F.R. § 1.702(a). However, the total examination delay must then be reduced by any actual overlap between the two delays. 37 C.F.R. § 1.703(f). Since the delay of 651 days by the USPTO (35 U.S.C. § 154(b)(1)(A)) in sending out the first action ended on October 3, 2006, prior to the invocation of the delay under 35 U.S.C. § 154(b)(1)(B) on October 21, 2006, there is no overlap between the two delays.

D. The resulting PTA is $(651 - 888) + 1158 = 921$ days.

E. Accordingly, Applicants request that the calculated 270 day PTA be adjusted to **921 days**.

37 C.F.R. § 1.705 (b)(2)(iii)

4. The present application is not subject to a Terminal Disclaimer.

37 C.F.R. § 1.705 (b)(2)(iv)

5. Circumstances set forth in 37 C.F.R. § 1.704 are described in Section 3(A) of this paper and in the attached printout of the Patent Term Adjustments tab from PAIR.

In view of the foregoing, it is respectfully requested that this Petition for Patent Term Adjustment Under 37 C.F.R. § 1.705(d) be favorably considered and that a corrected determination of Patent Term Adjustment be issued to reflect a PTA of **921** days.

Respectfully submitted,

Todd Esker
